

The **Texas Grazing Land Coalition (TXGLC)** is hiring a **Technical Assistance Specialist (or Specialists)** to join a **two-year contract project** covering four Major Land Resource Areas (MLRAs) in Texas: **West Cross Timbers, Rolling Plains, North Central Prairie, and Grand Prairie**—collectively known as "**The Big Country**."

We are looking for a highly motivated individual (or individuals) who:

- **Excels in engaging with livestock producers** and building strong relationships.
- **Has expertise in soil health and grazing management** and is skilled at communicating these concepts in practical, actionable ways.
- **Can develop and implement plans** that improve landscapes while delivering meaningful benefits to producers.

This exciting project is a collaboration between **TXGLC, Texas A&M AgriLife**, and the **Texas A&M Center for Grazinglands and Ranch Management**, funded by **industry partners**. The ideal candidate is **self-driven, enthusiastic, and results-oriented**.

What we offer:

- The chance to contribute to meaningful, land-focused conservation efforts.
- The opportunity to work with an experienced, passionate team of professionals.
- Potential for collaboration beyond the initial two-year project timeline.

How to Apply:

Send your **resume and references** to jenny@texasglc.org. Applications are open until **December 1, 2024**.
